

AACN CNE PROGRAM INFORMATION FORM

Program Title: Using Research to Identify best Practice Guidelines for the Treatment of Incontinence Associated Dermatitis		Presentation Date: <u>4/15/11</u>		
Target Audience: RNs, LPNs, Advanced Practice Nurses	Number of Contact Hours Requested: 1.00		Category: A	
Program Description: Major Program Features / Topics	This program define and differentiate the four levels of Incontinent Associated Dermatitis (IAD): mild, moderate, severe, and fungal. The participant will be able to select appropriate pericare interventions based on the appropriate skin assessment and identification of IAD present. These interventions were examined and researched through the support of AACN grant. The research design, process and lessons learned while conducting the research will be shared.			
Program Objective(s):	<ol style="list-style-type: none"> 1. Define Incontinent Associated Dermatitis (IAD). 2. Differentiate between mild, moderate, severe and fungal IAD. 3. Select the appropriate plan of care and pericare interventions with correct assessment/identification of IAD. 4. Review necessary components when conducting research 5. Discuss steps of the research process. 			
Location:	Receptions, Loveland Facility Name	10681 Loveland-Madeira Rd Street Address	Loveland City	OH State
Teaching Method: (check all that apply)	<input type="checkbox"/> Lecture Only <input type="checkbox"/> Lecture with Visual Aids <input type="checkbox"/> Demonstration <input checked="" type="checkbox"/> Case Studies <input type="checkbox"/> Small Group Discussion <input checked="" type="checkbox"/> Question & Answer			
Learning Evaluation: (must be attached, check all that apply)	<input checked="" type="checkbox"/> Pre-test/Post-test <input type="checkbox"/> Return Demonstration <input type="checkbox"/> Self-Assessment Questions <input type="checkbox"/> Case Studies <input type="checkbox"/> Concept Implementation			

In the table below, write the educational learning objectives for the above-mentioned program. Include all of the content for each objective presented, in the form of an outline. Include the time allotted for each objective (do not include time for introductions, breaks, and/or meals) and list the presenters for each objective. Please distinguish and identify objectives requiring clinical hours. Use additional sheets if needed.

Date (if program is for multiple days):

Learning Objectives	Content (Topics)	Time Frame	Presenter
<p>List each educational objective (one per row).</p> <p>The learner will be able to:</p>	<p>Provide an outline of the content presented and indicate to which objective the content is related.</p>	<p>Provide a <u>definite</u> time - minutes -for each topic.</p>	<p>List the presenter(s) for each object or content area.</p>
<p>Define Incontinent Associated Dermatitis (IAD).</p>	<p>Review functions of the skin. Review aging skin. Review anatomy involved with IAD assessment. State the prevalence of incontinence, cost and psychosocial issues related to incontinence. Define IAD and characteristics. Differentiate between IAD and Pressure ulcers. State the purpose of the study.(related to objective 4) List Research questions(related to objective 4).</p>	<p>10</p>	<p>Lisa Longshore</p>
<p>Differentiate between mild, moderate, severe and fungal IAD.</p>	<p>Review the types of IAD by showing pictures and characteristics/symptoms of each level. Review differences in skin findings in different skin tones. Review two identification and intervention tools published. Review proposed tool that was researched.(related to objective 4). Review method and procedure of data collection (related to objective 4).</p>	<p>15</p>	<p>Lisa Longshore</p>
<p>Select the appropriate plan of care and pericare interventions with correct assessment/identification of IAD.</p>	<p>Review properties of barrier creams. Review fecal containment management devices. Review complications of using enclosed depends. Discuss the interventions that are appropriate for each level of IAD. Define caregiver's role in caring for a resident with IAD. Review four case studies for participants to identify the IAD and treatment plan. Review the data analysis and results of the study (related to objective 4).</p>	<p>20</p>	<p>Lisa Longshore</p>
<p>Discuss steps of the research process.</p>	<p>Purpose of Study Research questions Methods used Procedure of data collection reviewed Data analysis and results discussed</p>	<p>5</p>	<p>Lisa Longshore</p>

Learning Objectives	Content (Topics)	Time Frame	Presenter
Able to discuss limitations and implications of the study.	Limitations of the study discussed. Future steps in caring for residents with IAD. Questions and answers.	5	Lisa Longshore

Use additional sheets if needed.
